# ABOUT US

Many Golf Clubs rely on a cash-based honesty system to receive Green Fees payments outside of Club House hours.

Our own Green Fee payment experiences, have shown us that 90% of Clubs rely on a cash-based honesty system at times when the Clubhouse is closed. Golf Clubs can be prone to missing out on income due to players holding incorrect change or sometimes not being as mindful of the need to pay for their round. As a result, underweight Green Fees envelopes!

This is where we can help; **Green Fees Australia** can now provide you with a simple solution to collect online payments from players via our easy to use website.

**greenfees.com.au** is a web app created, here in Tasmania, to help clubs collect electronic Green Fee payments.

Our web app utilises mobile first design and highly secure payment processes to support a range of participating clubs on a single platform.

**We currently accept:**

## After hours payments

# HOW DOES IT WORK?

A player will access our payment platform on any online device via a simple, quick and easy process at [greenfees.com.au](https://greenfees.com.au)

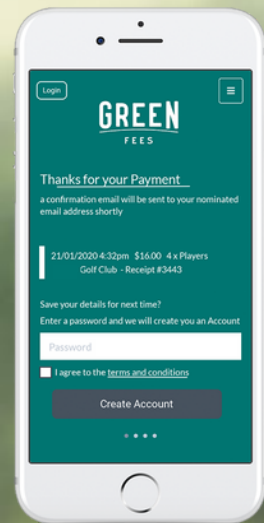

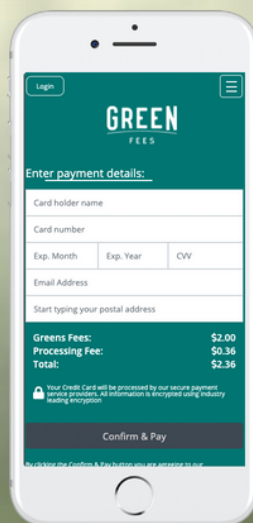

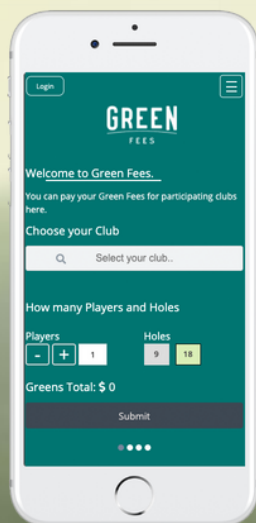

Player visits [greenfees.com.au](https://greenfees.com.au)

Selects the golf club, number of players and holes to be played

Enters payment details and confirms payment

Payment confirmation emailed to both the player and Golf Club.

Green Fees payment is settled to Club bank account

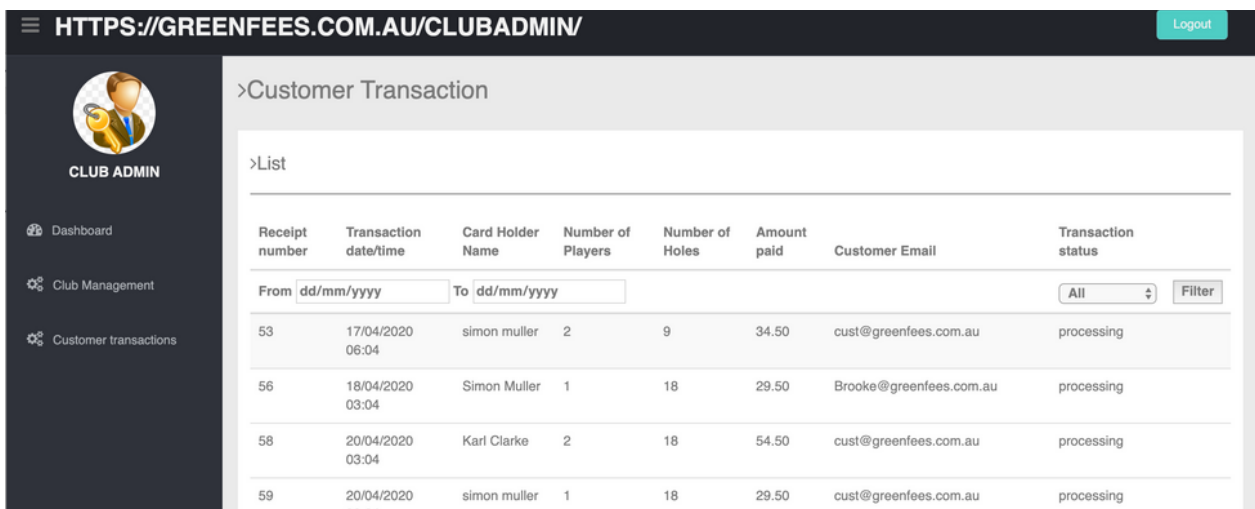

## Quick and easy

# CLUB SUPPORT

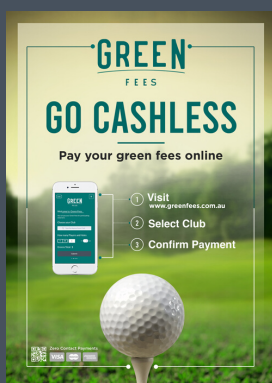

**We supply the Golf Club with a dedicated admin portal to:**

- View real-time Green Fees transactions online,
- receive immediate email notification,
- report on Green Fees revenue by period,
- a customised page for advertising the Club,
- and to manage Green Fees pricing.

The screenshot shows the 'Customer Transaction' page in the Green Fees Club Admin portal. The page has a dark sidebar with a 'CLUB ADMIN' profile and navigation links for Dashboard, Club Management, and Customer transactions. The main content area displays a table of transactions with columns for Receipt number, Transaction date/time, Card Holder Name, Number of Players, Number of Holes, Amount paid, Customer Email, and Transaction status. There are filters for date range and status.
